

## **Pieter Obels, Netherlands (°1968)**

Sculptor & creator of the World Chocolate Masters 2005 trophy.

### **About the artist :**

Pieter Obels works and lives in Tilburg, Netherlands

### **Education :**

1988 – 1992 : Academy of Visual Arts, Tilburg

### **Work :**

His sculptures are details from the world around us, brought into a new context to create a new image or shape. The shape of his works originate from nature, and the processes that have led to create nature.

Another important aspect is movement. Movement to create an interaction between the spectator and the sculpture, a tension and an influence on the surrounding space.
